- MICHELLE OBAMA - **STARTUPWIRE**

"Go into business with an open mind. Know you can have a very good business idea, but be prepared that sometimes the environment will not allow you to achieve it. Be flexible. Think out of the box. Think about ways to diversify. Think of ways to be profitable at all times. Once you are in business it does come down to profitability. It doesn't help to be so passionate about something that is not bringing in money for you. You should be able to realize profits. If you can't make money from the initial idea, then alter it to help keep you afloat."
